SOCIAL RESEARCH

COURSE OBJECTIVE :-

- To understand the application of the scientific method to answer social science research questions.
- To understand the logic of sampling.
- To understand the logic of these modes of observation: experimental method, interviews, focus groups, field research, and unobtrusive research
- To develop an understanding of the basic approaches to qualitative and quantitative data analysis

Syllabus

Unit-1 Social Research – The meaning , objectives, the phase of social research, social research scope and significance of the study conclusions. Type of Social Research - Social research exploratory, descriptive social research, experimental social research pares social research applied social research, practical social research, and social evaluative research. Research format – Entity framework – the study objectives, introduction, research format meaning and definitions of format research objectives, the research component part of the format the importance of research, research methodology of compilation format versus fact research the type of format. Hypothesis - meaning characteristics, type and construction –Objectives, preamble, meanings and definitions of hypothesis characteristics of hypothesis type of hypothesis construction resources of Hypothesis the importance of hypothesis, hypothesis boundaries.

Unit-2 Observation –Objectives, preamble, sense of observation characteristics, the process of observation, observation types and their merits and demerits, the usefulness and limitations of observational method.

Schedule,– Objectives, preamble, schedules type, manufacturing process schedule, schedule, quality, schedule, defects or limitations, summary.

Questionnaire– Objectives, introduction, major types of Questionnaire, characteristic of Questionnaire, Questionnaire the creation, Questionnaire Reliability, Questionnaire properties and Limits of Questionnaire .

Case Study- – The study objectives, preamble, as a method of personal study, values of individual studies, used under individual study phase/ procedure individual study under the information (data) of the source, the importance of individual study personal Limitations of the study.

Unit-3 Sampling nature and method sampling refers to the essential characteristic of the great sampling usefulness and limitations of sampling.

Entity Framework – objectives, preamble, census and sampling, sampling refers to the essential characteristic of the great sampling, select sampling, sampling utility, sampling limitations, problems sampling, sampling determine the size and reliability.

Unit-4 Sampling method: random sampling Purposeful sampling, sampling stratified, multi layered sampling specific sampling and self – selected sampling – Objectives, introduction, methods of sampling,.

Interview- meaning ,definition and objective of interview, phase of the utility of Interviews , instructions for stage of the interview process, Interviews problems, precautions to be taken during the Interview, the usefulness of Interviews, Interviews limitations, instructions for interview.

Unit-5 Primary and secondary sources of information – objectives, introduction, source of information, primary materials, utilization of primary materials, primary material limitations, primary source materials, secondary materials, utilization of secondary materials, limitations, source materials, utilization of secondary materials, secondary materials limitations source of secondary materials, differences between primary and secondary materials. Tabulations of Data – objectives, introduction, materials characteristics, classification, objectives and basic of classification of content analysis , tabulation and interpretation, tabulation of materials, various types of tabulation, table creation, methods of tabulation, the utility and limitations of tabulation, interpretation of content.

COURSE OUTCOME:-

- Student should know about different types of social research
- Student should learn the logic of sampling
- Student should know about observation, interview and field research
- Student should know about basic approaches and data analysis
